PROJECT EXPERIENCE

Adventure Tour :

- A Full Stack Website Where Users Can Login and logout with their email address.
- Users Can See All The Turing Places That Offer.
- Users Can Book Any Places and delete also.
- Users Can See Their Booking.
- If Users don't log In They Can't Book Any Places. It will redirect in the login page

[Live Site](#)

Book Library :

- It's a book library application based on a public book api.
- Anyone can search by book name it will show the result
- It also shows how many results are found based on the search topic.

[Live Site](#)

MHC LAB (Mental health consulting lab) :

- Potential customers can log in, log out, register their account.
- Customers can see all the services in the home page but if they're not logged in , they can't access the service details page .
- This website also contains 2 other pages and those are also protected. If users are logged in, they can access those pages.
